SUMMARY

I'm a computer engineer with 15 years of experience developing web applications using HTML5, CSS3, and JavaScript. Over the past 8 years, I have extensively worked with React (including React 16 and React 18), building various applications with a focus on delivering seamless and intuitive user experiences. My work with React includes utilizing Hooks and custom-built hooks to enhance functionality and performance. Additionally, for the past 6 years, I have integrated Redux into complex projects, effectively managing application state and improving performance. My experience includes developing personality test applications, systems to enhance communication between departments within a company, and applying diverse software development methodologies to successfully deploy projects to production.

EXPERIENCE

Fullstack Developer | Happy Software

- Built responsive web applications with React and TypeScript.
- Developed cross-platform mobile apps with React Native.
- Enhanced UI/UX, increasing user satisfaction by 20%.
- At Pluto TV: Improved UI/UX using TypeScript and React.js, boosting user retention by 15%.
- At FreshTri: Developed and optimized the mobile app with React Native, reducing load times by 30% and enhancing performance.
- Conducted code reviews and applied best practices to ensure maintainable and high-quality codebases.
- Integrated and managed CMS platforms like Amplience and Contentful to streamline content workflows and improve site performance.

Front End Developer | Logiety

03/2019 to 02/2020

- Working with React
- Testing with Jest
- Improving UX in the new App Web
- Improve the structure of the project for better maintenance

Consultant/Freelance Front End Developer | Freelance

11/2017 to 01/2019

- Working with React Native in the Freshtri application
- Testing with Jest in React application
- Making sites with Gatsby and Netlify

Front End Developer | Tecnologías EOS

04/2017 to 11/2017

- Working with Angular 5 to make user interfaces
- Hybrid application to android
- Testing and improved the quality in the code

Front End Developer | Koneksys

03/2015 to 12/2016

- Developed GUI's with HTML5, CSS3 and JavaScript
- Worked in Linked Data and PLM solutions
- Gave support with AngularJS to make web app, improve interfaces and modules in the app
- Tested and improved the quality in the code follow modern practices

Front End Developer | Agile Kitchen

03/2015 to 12/2016

- Developed Cabify's blog and website to foreign clients in the United States and England
- Developed a JavaScript module to display cars' prices and categories and its possible path
- Worked improving the responsive design of the website
- Parqueo, is an app for people to find parking in Mexico City and get paid for renting their parking space. The web app was developed with Angular and the mobile app with Ionic framework
- Tested web and mobile app connecting it to an API developed with Keystone.js
- Designed the views to show specific information to the user according to the device
- Tested for iOS and Android with Ionic Lab, Android emulator and XCode
- Used one library to make the device's camera scan the user's credit card
- Designed email templates
- Created themes for the site's homepage and blog
- Bolettos, web app to put for sale and buy event or concert tickets. Drew the different available places like stadiums, auditoriums and scenarios where the concert would be
- Worked improving the responsive design of the website
- Luvit. Web app to get statistics and graphics about your customers
- Created modules to show graphs, upload images and generate files in the application
- Created a file for the automation and configuration of the front-end tasks
- Created all the views of the application and worked improving the responsive design of the website

EDUCATION

Engineering in Computational Systems | Instituto Tecnológico Superior de Xalapa

2007 to 2012

SKILLS

JavaScript

TypeScript

React.js

React Native

Next.js

Redux

HTML/CSS

Tailwind

Remix

NestJs

MySQL

PostgresSQL

Team Palyer

Collaboration

Adaptability

Priorization

Analytical Thinking
